UNMANNED ARIZONA

Brought to you by Aerospace Arizona Association

About Us

Unmanned Arizona Summit & Expo is an annual conference offered by Aerospace Arizona Association.

The Association is a membership organization established to join unmanned industry stakeholders, coordinate key academic activities and advocate for legislature that advances the economic strength of the industry throughout Arizona.

The Association represents its members and the industry through education, advocacy, national / international partnerships, and networking. It is unique in its ability to bring together academia, corporations, businesses and entrepreneurs via roundtables, industry tours, forums, and conferences organized by the Association. It also works closely with local, state and federal legislators to champion policies and regulations that facilitate a thriving unmanned industry.

In addition to the membership association, Aerospace Arizona Association is the founder and managers of The Center for Innovation, a testing facility for unmanned technology in Benson, Arizona.

Visit our website to learn more about becoming a member: www.aerospacearizona.org

OUR MISSION STATEMENT

Aerospace Arizona Association promotes and advances the unmanned industry throughout the State of Arizona through actions focused on advocacy, education, networking and partnerships.
